Methodist Theological School (MTS) is an institution supported by the Sarawak Chinese Annual Conference, Sarawak Iban Annual Conference, and Sabah Annual Conference. It is also a primary training institution for pastors, missionaries, music directors, and lay leaders in the states of Sarawak and Sabah, Malaysia, showcasing multiethnicity of Malaysian Christianity and using Bahasa Iban, Bahasa Malaysia, and Chinese as mediums of instruction. Currently, MTS serves approximately 200 students who are participating in various full-time or part-time programs.

MTS has gone through several phases of redevelopment after the initial campus construction in 1959:

First Phase:

MTS Administrative Building
(Completed in 1998)

Second Phase:

New Female Hostel
(Susanna Hall, completed in 2003)

Third Phase:

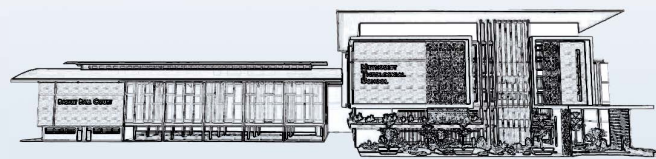

Four-storey Male & Married student, and
Lecturers' Apartment (Completed in 2011)

After 20 years of using the MTS Administrative Building, due to the limitation of space, we were forced to utilize the only conference room and chapel for classes, seminars, and Short-term Missions School. We foresee more space needed for our future development of using Bahasa Malaysia as a medium of instruction.

Despite the plan to extend the Administrative Building well before the pandemic, MTS has delayed this extension project, partly due to the many partner Annual Conferences' major projects which were going on in the last few years, and the challenges of the pandemic and financial constraints. In view of the needs and rising building cost, after much prayerful meetings and planning, the Board of Management has decided to embark with faith this project with no further delay.

Fourth Phase:

The extension building project is estimated to cost 15 million Ringgit Malaysia (site plan attached). The plan involves demolishing old structures and constructing a new building adjacent to the existing MTS Administrative Building. This extension block will facilitate the expansion of the library and provide additional facilities such as conference rooms, a multipurpose hall, counselling and spiritual direction rooms, while allowing the old library to make way for more classrooms. The construction will also include a sports hall with a ground-floor parking area, workers' quarters, a tool room, and a recycling space. MTS also plans to create specific areas for prayer and leisure. This project is estimated to consume a period of 4 years (2024 – 2027). By God's grace, we hope to raise the fund needed within a 2-year period.

We claim the promises of God that He will bless this project and touch the hearts of His people to give generously. The words of Nehemiah have come to us and encouraged us: "Let us rise up and build." (Nehemiah 2:18). Like Nehemiah, by God's grace and trust in His bountiful providence, we shall overcome the many challenges of this project, both now and in the near future. Through your faith-ful and faithful giving and participation in this project, God not only will rebuild MTS physically, His church, you and I will be rebuilt to become His faithful disciples. Your cheerful participation in this project is vital—every brick, every Sen and Ringgit counts! Let us build together with one heart and purpose for the now and future development of MTS to train ministers, missionaries, music directors and leaders in the Borneo Island and beyond. Jehovah Jireh, God shall provide!
